## Table of Contents

FOREWORD .....	a
Executive Summary.....	i
Table of Contents .....	TC-1
List of Figures .....	LF-1
List of Tables .....	LF-2
1. Introduction .....	1-1
1.1 A Brief History of the DII COE .....	1-3
1.2 The DII COE Concept.....	1-5
1.2.1 The DII COE as a System Foundation .....	1-6
1.2.2 The DII COE as an Architecture.....	1-8
1.2.3 The DII COE as a Reference Implementation.....	1-9
1.2.4 The DII COE as an Implementation Strategy .....	1-9
1.3 Lessons Learned.....	1-11
1.4 Requirements and Objectives .....	1-13
1.5 Document Scope .....	1-15
1.6 Applicable Documents, Standards, and Specifications .....	1-16
1.7 Document Structure.....	1-18
2. The DII COE.....	2-1
2.1 Fundamental COE Concepts .....	2-2
2.1.1 COE Taxonomy.....	2-4
2.1.2 COE Architecture.....	2-5
2.1.2.1 COE Kernel .....	2-8
2.1.2.2 Infrastructure Services .....	2-10
2.1.2.3 Common Support Applications .....	2-11
2.1.2.4 COE Developer Toolkits.....	2-11
2.1.2.5 SHADE .....	2-11
2.1.2.6 COE “Plug and Play” .....	2-13
2.1.3 COE Configuration Definitions .....	2-15
2.1.4 DII Compliance .....	2-19
2.1.4.1 Compliance for an Arbitrary Group of Segments .....	2-24
2.1.4.2 Compliance for the DII COE.....	2-25
2.1.4.3 Compliance for a COE-Based System .....	2-25
2.1.4.4 Compliance in Mixed Systems .....	2-26
2.1.5 Interoperability of COE-Based Systems .....	2-27
2.1.5.1 Interfacing Systems.....	2-27
2.1.5.2 System and Segment Integration .....	2-27
2.1.5.3 Interoperability Levels.....	2-28
2.1.5.4 Mapping Interoperability and Compliance Levels .....	2-29
2.1.6 Principles for Selecting COE Components .....	2-30
2.2 Account Groups and Profiles .....	2-33

---

---

**Table of Contents**

---

---

2.2.1 Privileged User Accounts.....	2-34
2.2.2 Security Administrator Accounts .....	2-35
2.2.3 System Administrator Accounts.....	2-35
2.2.4 Database Administrator Accounts.....	2-36
2.2.5 Operator Accounts .....	2-36
2.2.6 Character-Based Interface Accounts .....	2-36
2.3 Site Configurations .....	2-38
2.4 Installing COE-Based Systems.....	2-40
2.5 Supported Configurations .....	2-42
3. Development Process Overview.....	3-1
3.1 Version Numbering.....	3-2
3.1.1 Segment Version Numbers .....	3-2
3.1.2 COTS Version Numbers.....	3-3
3.1.3 Patch Version Numbers .....	3-4
3.1.4 COE Version Number.....	3-4
3.1.5 System Version Number .....	3-4
3.1.6 Configuration Definition Version Numbers .....	3-5
3.2 Process Flowchart.....	3-6
3.2.1 Processes Applicable to All Segments .....	3-9
3.2.1.1 Segment Registration .....	3-9
3.2.1.2 Segment Development .....	3-12
3.2.1.3 Segment Submission .....	3-13
3.2.1.4 Segment Integration.....	3-14
3.2.1.5 Segment Installation.....	3-15
3.2.2 Processes Specific to Database Segments.....	3-16
3.2.2.1 Segment Registration .....	3-16
3.2.2.2 Segment Development .....	3-17
3.2.2.3 Segment Submission .....	3-18
3.2.2.4 Segment Integration.....	3-19
3.2.2.5 Segment Installation.....	3-19
3.3 Migration Considerations.....	3-20
4. DII COE/SHADE Database Concepts .....	4-1
4.1 Constraints on Database Developers .....	4-4
4.2 Database Integration Requirements.....	4-6
4.2.1 Evolutionary Implementation.....	4-6
4.2.2 Database Segmentation.....	4-8
4.2.3 Managing Multiple Databases .....	4-9
4.2.4 Data Integrity .....	4-10
4.2.5 Discretionary Access .....	4-11
4.2.5.1 Session Management.....	4-13
4.2.5.2 Discretionary Access Control.....	4-14
4.2.5.3 Access Management.....	4-16
4.2.6 Supporting Multi-Database Tools .....	4-17
4.2.7 Client/Server Independence .....	4-18
4.2.8 Distributed Databases .....	4-19

---

---

**Table of Contents**

---

---

4.2.9 Backup and Recovery .....	4-20
4.3 Guidelines for Creating Database Objects.....	4-21
4.3.1 Database Accounts .....	4-21
4.3.1.1 Database Administrators .....	4-21
4.3.1.2 Database Owners .....	4-21
4.3.1.3 Users .....	4-22
4.3.2 Physical Storage .....	4-22
4.3.2.1 Data Store/File Standards.....	4-22
4.3.2.2 Data Storage Implementation.....	4-23
4.3.3 Database Definition Scripts.....	4-24
4.3.4 Database Objects .....	4-25
4.3.4.1 Database Tables .....	4-25
4.3.4.2 Data Elements.....	4-27
4.3.4.3 Database Views .....	4-27
4.3.4.4 Rules on Database Objects .....	4-30
4.3.4.4.1 Constraints .....	4-30
4.3.4.4.2 Stored Procedures .....	4-31
4.3.4.4.3 Triggers.....	4-32
4.3.4.5 Indexes .....	4-32
4.3.5 Database Roles .....	4-34
4.3.6 Grants .....	4-35
4.3.7 Inter-Database Dependencies.....	4-36
4.3.7.1 Data Objects .....	4-37
4.3.7.2 Rules in Other Databases .....	4-38
4.3.7.3 Database Roles Spanning Multiple Databases.....	4-39
5. Runtime Environment.....	5-1
5.1 New and Obsolete Features.....	5-4
5.1.1 New Features .....	5-4
5.1.2 Obsolete Features .....	5-6
5.2 Disk Directory Layout .....	5-8
5.2.1 Segment Subdirectories .....	5-12
5.2.2 USERS Subdirectories.....	5-14
5.2.3 Developer Subdirectories.....	5-16
5.2.4 Test Installation Subdirectories .....	5-16
5.2.5 Application-Server Subdirectories.....	5-17
5.3 Segment Prefixes and Reserved Symbols.....	5-18
5.4 Segment Types and Attributes .....	5-23
5.4.1 COTS Segment Types .....	5-23
5.4.2 Account Group Segment Types .....	5-26
5.4.3 Software Segment Types .....	5-30
5.4.4 Data Segment Types.....	5-32
5.4.5 Database Segment Types .....	5-37
5.4.6 Patch Segment Types.....	5-40
5.4.7 Aggregate, Parent, and Child Attributes.....	5-42
5.4.8 COE-Component Attribute.....	5-44
5.4.9 DCE Attribute .....	5-46

---

---

**Table of Contents**

---

---

5.4.10 Web Attribute.....	5-46
5.4.11 Generic Attribute.....	5-46
5.4.12 Segment Dependencies.....	5-47
5.5 Segment Descriptors and Descriptor Files.....	5-49
5.5.1 Segment Descriptor Files.....	5-54
5.5.1.1 DEINSTALL.....	5-54
5.5.1.2 FileAttribs.....	5-54
5.5.1.3 Installed.....	5-55
5.5.1.4 PostInstall.....	5-55
5.5.1.5 PreInstall.....	5-55
5.5.1.6 PreMakeInst.....	5-55
5.5.1.7 ReleaseNotes.....	5-56
5.5.1.8 SegChecksum.....	5-57
5.5.1.9 SegInfo.....	5-57
5.5.1.10 SegName.....	5-57
5.5.1.11 Validated.....	5-61
5.5.1.12 VERSION.....	5-62
5.5.2 SegInfo Descriptor Sections.....	5-62
5.5.2.1 AcctGroup.....	5-62
5.5.2.2 AppPaths (NT Only).....	5-63
5.5.2.3 COEServices.....	5-64
5.5.2.4 Community.....	5-65
5.5.2.5 Comm.deinstall.....	5-72
5.5.2.6 Compat.....	5-73
5.5.2.7 Conflicts.....	5-75
5.5.2.8 Data.....	5-75
5.5.2.9 Database.....	5-75
5.5.2.10 DCEClientDef.....	5-78
5.5.2.11 DCEServerDef (UNIX Only).....	5-79
5.5.2.12 Direct.....	5-93
5.5.2.13 FilesList.....	5-95
5.5.2.14 Hardware.....	5-97
5.5.2.15 Help.....	5-99
5.5.2.16 Icons.....	5-100
5.5.2.17 Menus.....	5-100
5.5.2.18 Network.....	5-101
5.5.2.19 Permissions.....	5-104
5.5.2.20 Processes.....	5-105
5.5.2.21 Registry (NT only).....	5-106
5.5.2.22 ReqrdsScripts (UNIX only).....	5-108
5.5.2.23 Requires.....	5-109
5.5.2.24 Security.....	5-110
5.5.2.25 SharedFile.....	5-111
5.6 Segment Installation.....	5-113
5.6.1 MakeInstall Flowchart.....	5-113
5.6.2 Installation Flowchart.....	5-115
5.6.3 Database Installation and Removal.....	5-116

---

---

**Table of Contents**

---

---

5.6.3.1 Database Installation .....	5-116
5.6.3.2 Database Segment Deinstall .....	5-120
5.7 Partial Segmentation for COTS Products .....	5-123
5.8 Security Considerations .....	5-125
5.8.1 Segment Packaging.....	5-125
5.8.2 Classification Identification .....	5-125
5.8.3 Auditing .....	5-125
5.8.4 Discretionary Access Controls .....	5-126
5.8.5 Command-Line Access .....	5-126
5.8.6 Privileged Processes .....	5-126
5.8.7 Installation Considerations.....	5-127
5.8.8 File Permissions.....	5-127
5.8.9 Data Directories .....	5-127
5.9 Database Considerations .....	5-128
5.9.1 Database Segmentation Principles.....	5-128
5.9.1.1 Database Segments .....	5-128
5.9.1.2 Database Segmentation Responsibilities .....	5-129
5.9.1.2.1 DISA.....	5-129
5.9.1.2.2 Developers .....	5-130
5.9.1.2.3 Database Administrators.....	5-130
5.9.1.3 DBMS Tuning and Customization.....	5-130
5.9.2 Database Inter-Segment Dependencies.....	5-131
5.9.3 Loading Data into Database Segments .....	5-133
5.10 Tailoring the COE.....	5-135
5.10.1 Adding Menu Items to the Desktop .....	5-135
5.10.2 Adding Icons to the Desktop .....	5-135
5.10.3 Modifying Window Behavior (UNIX).....	5-136
5.10.4 Using Environment Extension Files (UNIX).....	5-137
5.10.5 Using Community Files.....	5-138
5.10.6 Defining Background Processes.....	5-138
5.10.7 Reserving Disk Space .....	5-139
5.10.8 Using Temporary Disk Space.....	5-140
5.10.9 Defining Sockets.....	5-140
5.11 Miscellaneous Topics.....	5-141
5.11.1 Color Table Usage.....	5-141
5.11.2 Shared Libraries.....	5-141
5.11.3 Adding Network Host Table Entries .....	5-141
5.11.4 Registering Servers.....	5-142
5.11.5 Adding and Deleting User Accounts .....	5-142
5.11.6 Character-Based Applications .....	5-142
5.11.7 License Management .....	5-143
5.11.8 Remote versus Local Segment Execution.....	5-143
5.11.9 Modifying Network Configuration Files.....	5-143
5.11.10 Establishing NFS Mount Points.....	5-144
6. PC-Based Applications .....	6-1
6.1 Disk Directory Structure.....	6-2

---

---

**Table of Contents**

---

---

6.2 Account Groups .....	6-5
6.3 Registry Usage .....	6-6
6.4 Reserved Prefixes, Symbols, and Files.....	6-8
6.5 Programming Standards.....	6-9
6.5.1 File System.....	6-9
6.5.2 Dynamic Link Libraries.....	6-10
6.5.3 Graphics.....	6-10
6.5.4 Fonts.....	6-10
6.5.5 Printing.....	6-11
6.5.6 Network Considerations .....	6-11
6.5.7 Miscellaneous .....	6-13
6.6 Segment Installation.....	6-15
6.7 NT COE Descriptors .....	6-16
7. Web-Based Applications.....	7-1
7.1 Fundamental COE Web Concepts .....	7-2
7.1.1 COE Web Component Segments .....	7-2
7.1.1.1 Web Servers .....	7-2
7.1.1.2 Web Browsers .....	7-3
7.1.2 Web Mission-Application Segments.....	7-3
7.2 Web Account Groups .....	7-4
7.2.1 Web Security Administrator Account.....	7-4
7.2.2 Web System Administrator Account .....	7-4
7.2.3 Web User Accounts.....	7-5
7.3 Miscellaneous .....	7-6
7.3.1 HTML Specification .....	7-6
7.3.1.1 HTML <HEAD> .....	7-6
7.3.1.2 HTML <BODY>.....	7-7
7.3.2 User Interface.....	7-7
7.4 Installing Web Mission-Application Segments.....	7-8
7.5 Supported Configurations .....	7-10
8. DCE-Based Applications .....	8-1
8.1 DCE Overview .....	8-2
8.1.1 Remote Procedure Call.....	8-2
8.1.2 Cell Directory Services .....	8-3
8.1.3 Distributed Time Service .....	8-3
8.1.4 Distributed File Services .....	8-3
8.1.5 Security.....	8-4
8.1.6 Threads .....	8-5
8.1.7 Client/Server Concepts .....	8-5
8.2 DII COE DCE Services .....	8-7
8.2.1 Standard Server Installation.....	8-7
8.2.2 Standard Server Initialization.....	8-7
8.2.3 Standard Client Binding.....	8-7
8.2.4 Standard Reference Monitor and ACL Manager .....	8-7
8.2.5 DCE Verification.....	8-7

---

---

**Table of Contents**

---

---

8.2.6 Template Application.....	8-8
8.3 Runtime Environment .....	8-9
8.3.1 Segment Directory Structure .....	8-9
8.3.2 CDS Structure.....	8-10
8.3.3 Distributed File System.....	8-12
8.3.4 DCE-Related Segment Descriptors .....	8-12
8.3.5 Server Issues .....	8-13
8.3.5.1 Naming .....	8-13
8.3.5.2 Interface Definition .....	8-15
8.3.5.3 Server Registration .....	8-15
8.3.5.4 Server Startup.....	8-18
8.3.5.5 Configuration.....	8-19
8.3.5.6 Initialization .....	8-21
8.3.5.7 Security .....	8-21
8.3.5.7.1 Authentication .....	8-22
8.3.5.7.2 Authenticated RPC.....	8-23
8.3.5.7.3 Authorization .....	8-24
8.3.5.7.4 Generic Security Service API.....	8-24
8.3.5.8 Auditing.....	8-25
8.3.5.9 Threads.....	8-26
8.3.5.10 Installation .....	8-26
8.3.5.11 Server Exceptions .....	8-28
8.3.5.12 Client-Side Libraries.....	8-28
8.3.6 Client Issues .....	8-29
8.3.6.1 Binding .....	8-29
8.3.6.2 Exceptions .....	8-30
8.3.6.3 Security .....	8-31
8.3.6.4 Auditing.....	8-31
8.3.6.5 Threads.....	8-31
8.3.7 Miscellaneous Information and Requirements .....	8-31
8.4 Distributed File System.....	8-33
8.4.1 DFS Structure .....	8-35
8.4.2 DFS Guidance .....	8-35
8.4.3 Potential Uses for DFS .....	8-36
8.5 Migration Recommendations .....	8-38
8.5.1 Case 1: Application Startup .....	8-38
8.5.2 Case 2: Socket/ONC RPC .....	8-39
8.5.3 Case 3: Distributed Databases.....	8-40
8.5.4 Case 4: Distributed Files .....	8-41
9. Development Environment .....	9-1
9.1 Coding Conventions .....	9-2
9.1.1 Language-Independent Conventions .....	9-2
9.1.2 Ada .....	9-3
9.1.3 C/C++ .....	9-4
9.2 Development Directory Structure .....	9-6
9.3 Separating Out the Development Environment.....	9-8

---

---

**Table of Contents**

---

---

9.3.1 UNIX Development Scripts .....	9-8
9.3.2 NT and UNIX Recommendations .....	9-8
9.3.3 Test Account Group .....	9-9
9.4 Private and Public Files .....	9-11
9.5 Developer's Toolkit .....	9-12
10. COE Online Services .....	10-1
10.1 Security Features .....	10-3
10.2 Software Distribution Management System.....	10-4
10.3 COE Information Server .....	10-5
10.4 Mirror Sites .....	10-6
Appendix A: Supported Configurations .....	A-1
A-1. Platforms Supported .....	A-2
A-1.1 UNIX Configurations .....	A-2
A-1.2 NT Configurations.....	A-3
A-2. DII COE Kernel Platform Certification Program.....	A-4
A-2.1 Objectives.....	A-4
A-2.2 Applicability of Certification .....	A-4
A-2.3 Program Restrictions .....	A-5
Appendix B: Compliance Checklists .....	B-1
B-1. Standards Compliance (Level 1).....	B-5
B-2. Network Compliance (Level 2) .....	B-7
B-3. Platform Compliance (Level 3).....	B-9
B-4. Bootstrap Compliance (Level 4).....	B-11
B-5. Minimal DII Compliance (Level 5).....	B-13
B-6. Intermediate DII Compliance (Level 6) .....	B-22
B-7. Interoperable Compliance (Level 7) .....	B-27
B-8. Full DII Compliance (Level 8).....	B-30
B-9. Recommended Guidelines .....	B-32
Appendix C: COE Tools.....	C-1
C-1. General Tool Features.....	C-2
C-1.1 Communicating with the Tools .....	C-2
C-1.2 Standard Parameters .....	C-3
C-1.3 Tool Helper Functions .....	C-4
C-1.4 Summary Tables .....	C-4
C-2. COE Runtime Tools .....	C-7
C-2.1 COEAddDBUser .....	C-7
C-2.2 COEAskUser.....	C-7
C-2.3 COEBackupDB .....	C-7
C-2.4 COEChkUpdates .....	C-7
C-2.5 COEConnectAS .....	C-8
C-2.6 COECopyWS .....	C-8
C-2.7 COECreateAS .....	C-9

F-2.4 Sybase Environment Variables.....	F-13
F-2.5 COE Tool Considerations .....	F-13
F-2.5.1 COECreateDS.....	F-13
F-2.5.2 COEStartDBServer .....	F-14
F-2.5.3 COEExtendDS .....	F-14
F-3. Informix RDBMS.....	F-15
F-3.1 Informix Server Segment.....	F-15
F-3.2 Informix Client Segment.....	F-15
F-3.3 Informix Application Database Segments .....	F-16
F-3.3.1 DBS_files Directory .....	F-16
F-3.3.2 Informix Tables .....	F-16
F-3.3.3 Informix Views.....	F-17
F-3.3.4 Informix Constraints.....	F-17
F-3.3.5 Informix Indexes.....	F-18
F-3.3.6 Informix Grants .....	F-18
F-3.3.7 Informix Roles.....	F-18
F-3.4 Informix Environment Variables.....	F-18
F-3.5 Database Synonyms .....	F-19
F-4. Reserved Words.....	F-20
F-5. Data Type Compatibility.....	F-23
Appendix G: Vendor-Specific DCE Considerations .....	G-1
G-1. DCE 1.1 Features .....	G-2
G-1.1 Serviceability.....	G-2
G-1.2 DCE Messaging .....	G-2
G-1.3 Backing Store/Database Library .....	G-3
G-2. Ada .....	G-4
G-3. COTS Development Tools.....	G-5
List of Acronyms.....	AC-1
Glossary.....	GL-1
Index.....	IN-1

## List of Figures

Figure 1-1: DII COE and COE-Based Systems .....	1-7
Figure 2-1: DII COE Services.....	2-6
Figure 2-2: DII COE Architecture .....	2-9
Figure 2-3: SHADE Data Architecture .....	2-14
Figure 2-4: Configuration Definitions .....	2-17
Figure 2-5: DII Compliance Categories and Levels .....	2-21
Figure 2-6: Account Groups, Profiles, and Users .....	2-34
Figure 2-7: DII Notional LAN Architecture.....	2-38
Figure 2-8: Installing a COE-Based System .....	2-41
Figure 3-1: Development Process Overview .....	3-7
Figure 4-1: Shared Data Server Architecture .....	4-2
Figure 4-2: Business Rules and Constraints.....	4-12
Figure 4-3: Session Management .....	4-14
Figure 4-4: Functional Context .....	4-15
Figure 4-5: Grant Association Process.....	4-17
Figure 4-6: Data Allocation .....	4-24
Figure 4-7: Legacy Views.....	4-29
Figure 5-1: DII COE Directory Structure .....	5-9
Figure 5-2: Segment Directory Structure .....	5-13
Figure 5-3: Operator Directory Structure.....	5-15
Figure 5-4: Applications Server .....	5-17
Figure 5-5: COTS Directory Structure.....	5-24
Figure 5-6: Example COTS Segment Structure.....	5-25
Figure 5-7: Example Account Group Directory Structure .....	5-27
Figure 5-8: Data Directory Structure .....	5-34
Figure 5-9: Example Data Segment Structure .....	5-35
Figure 5-10: Database Segment Structure.....	5-38
Figure 5-11: Example Patch Directory Structure.....	5-40
Figure 5-12: Example Installed Patch.....	5-41
Figure 5-13: COE-Component Segments Directory Structure.....	5-45
Figure 5-14: MakeInstall Flowchart .....	5-114
Figure 5-15: Installation Flowchart .....	5-117
Figure 5-16: PostInstall Logic for DB Install .....	5-118
Figure 5-17: Install Scripts Logic.....	5-121
Figure 5-18: Inter-Database Dependencies.....	5-133
Figure 8-1: COE Directory Structure for DCE Segments.....	8-10
Figure 8-2: CDS Layout for the DII COE.....	8-11
Figure 8-3: Access to Servers in Local and Foreign Cells.....	8-18
Figure 9-1: Example Development Directory Structure.....	9-6

**List of Tables**

Table 2-1: Compliance and Interoperability Levels.....	2-30
Table 4-1: Definition Script Arguments .....	4-26
Table 5-1: Reserved Segment Prefixes .....	5-19
Table 5-2: COE-Related Environment Variables .....	5-21
Table 5-3: Platform and Operating System Constants.....	5-22
Table 5-4: Segment Descriptor Files .....	5-50
Table 5-5: SegInfo Segment Descriptor Sections .....	5-50
Table 5-6: DCE Client and Server Keywords.....	5-78
Table 5-7: Recommended ACL Bit Permissions.....	5-89
Table 5-8: Application Database Creation.....	5-119
Table 5-9: Application Database Deinstall.....	5-121
Table 8-1: dced Configuration Information .....	8-20
Table A-1: Supported UNIX Configurations.....	A-2
Table A-2: Supported NT Configurations .....	A-3
Table C-1: COE Runtime Tools.....	C-5
Table C-2: COE Developer Tools.....	C-6
Table F-1: Oracle RDBMS Server Configuration.....	F-2
Table F-2: Oracle RDBMS Client Configuration.....	F-4
Table F-3: DBMS Data Types .....	F-23
Table G-1: DCE-Related COTS Products.....	G-5
